[Part 1] : A Multi-Part Story Update Details To This NPI Data Record. The Documentation Story that involves Nurse Monica Ann Flynn is absolute true. I really hate to be a party pooper.

Considering the outcome of what happened to me in Denver Colorado in an 11-month hate and harassment conspiracy campaign targeting me, conditions of [#GangStalking](#). Some of the evidence that places this effort to be haters and their allies attacking me in the community that unfortunately was intended to be attacking my tenancy in direct residency in HIV/AIDS housing. In an overseeing totality of all events considered prior to and afterward of the filing for eviction against my tenancy on November 30th 2016 would be of course the call recording that was made during medical clinic session at the University of Colorado Health/Hospital with Nurse Monica Flynn. Unfortunately I do not have the very specifics internally of the UCHEALTH decisions that seemed to have weighed against the employees that were involved in this call recording. This call that was initiated during inside of a medical clinic mental health session was approved and not a secretive action. In my last session, I requested that a call could be made to my mother, for which, I needed her to verify certain aspects of events that were happening to me in the community that I was attempting to find and seek some resource to stop the hate and the harassment that I was receiving. This is the amazing part, it was not my intention to cause the terminations of two staff members when this call was requested and made. Although the call is recorded, the reason why it is recorded was that all calls on my device were being recorded due to the hate and harassment that I had been receiving. As such, the outgoing phone call conversation to my mother was known to being recorded. However the two medical staff on this recording of course were not aware it was being recorded. It still was not my intention to cause the terminations of two staff members when after I returned home from this these events, I emailed the call recording [an almost hour long audio file] to the email addresses at Uchealth for Monica Flynn and the other person in this call a

social worker. I was being responsible to notify the presence of this call recording to the other persons involved to be a good guy here.

[Part 5]: Denver Final - I really really really really really hate to be a party pooper.

Do go listen to the call recording made with Nurse Flynn before we depart the Denver area and move into two additional areas of conditions that are noteworthy region to region across the nation on Glassdoor and then my dumb ass knowing, this hate has infected itself into my hometown of the social services and doctor provider care in San Bernardino CA --- a massive mischievous marvel of molding muck ---- someone should be doing something about this --- for people are getting hurt --- people are getting sick --- people are dying because of this hate being allowed to continue its manifestations of tolerance embedded in the medical care and supportive functions of the Ryan White Care Act that no body seems to want to tackle the truth, the whole truth, and nothing but the truth, but me. How can you all sleep at night knowing this shit is going on --- and you call yourself health care providers for the health of patients.

[Part 4] : I really really really really hate to be a party pooper.

Taking into account that future forward events identified Jamie Villalobos of Colorado Health Network named to be puppeteer of this hate conspiracy harassment campaign targeting me, a direct internal source from the social services of the local DENVER HIV/AIDS community to obviously have infected into my medical provider care at UCHEALTH itself. After my eviction process transpired that I did not yet have the identifying source of this harassment. it would be in July of 2017 after an odd emotional action of Jamie Villalobos in front of the offices of Colorado Health Network that I had named him in a facebook live video the next day as the source of this harassment. I had nothing to confirm this but my own internal knowing of all events transpired to include the mentioned call recording here. After I recorded this facebook live video I had to leave the Denver area for my hometown of San Bernardino. This is EXTREMELY IMPORTANT to FOLLOW Audience. On Glassdoor starting to appear July 28th 2017 are very disturbing corroborating evidence of negative outlook employee reviews for Colorado Health Network. From the first post on through 5 of the 6 reviews, you can read them for yourself, proves there is an conspiracy internal of the Ryan White Care Act funded social service agencies as it appears in Denver Colorado with these events documented. In Glassdoor review for Colorado Health Network, the one that makes this direct tied to the violations of privacy internal that has infected into actual HIV provider care is this [[Glassdoor Review: Stay Away](#)] with all other 5 reviews into consideration including [[Glassdoor Review: If you don't gossip like a teenager, you'll be an outsider.](#)].

[Part 3] : I really really really hate to be a party pooper.

Along with this documentation of events that transpires in this conspiracy is the call recording made in August is online with a ZIP PASSWORD to prevent it from being placed into a published

made in August is online with a ZIP PASSWORD to prevent it from being placed into a published status. It might be noteworthy to the audience here that as an agreement between my mother and myself, as I was call recording every call made on my mobile device, I asked and received permission from my mother that I could actually PUBLISH any CALL RECORDING made between her and I at will. This would of course only be applicable to calls between just her and I. The call recording made with Nurse Flynn, well I have a greater need here of necessity. To call out the leaders of a hate conspiracy that is obvious with the evidence information tracking that can be proven to exist and brought into court evidence testimony. Let us first reference the call recording that was made Aug 17 2016 made in session with Monica Flynn at UCHEALTH in Aurora Colorado.

[http://realuphuman.net/Item-Proofs/HISTORY-Driskill/Veronica.Ann.Warnick%20Driskill/Not%20For%20Publication%20Use%20-%20%20Encrypted%20Sharing%20Private%20Use%20as%20needed%20--%20Mama%20-%20Fire%20Dancer_2016-08-17_11-14-32.zip].

This has a ZIP password that I am not directly providing in this NPI DATA record, however it is being provided to any interested readers by going to this page, the name here was my HIV DOCTOR involved in my care at UCHEALTH, Doctor Nancy Ellen Madinger. The password is showing on that page.

[Part 2]: I really really hate to be a party pooper.

This call was initiated because of events that occurred between Monica Flynn and myself in sessions prior to this day. I had made several written email correspondence to Ms. Flynn on file with the messaging internal of the My Health Connection of the UCHEALTH system. This to protect myself from the obvious switched change of attitude and behavior that I observed from Nurse Flynn during these mental health interface sessions internal of the infectious disease department that was being managed with my HIV/AIDS treatments there in Denver Colorado. A documentation record of this messaging is placed here: [<http://meme.gruwup.net/%23Kramobone-The.Bad/%23Monica.Anne.Flynn.NP/>] --- I'm sorry Nurse Flynn, but this the truth. You can reply here to apologize and confirm that you were not acting as an independent agent when the events that transpired between us occurred. Are we afraid of the truth? Like everyone else involved in this slams shut the door and seals their lips to an deafening silence. The call recording made was months prior to the eviction that finally became the path cause of these actions against me. Remember the eviction being filed in HIV/AIDS residential specific housing in Denver Colorado. This under the regional social services organization of Colorado Health Network aka Denver Colorado Aids Project. In the answer I provided to the court involving my eviction, I have documented where this conspiracy was exposed to be internal of the community by involvements of events prior to this call recording. This involves a bicycle and how in October this bicycle became the subject of interest of another tenant claiming this bicycle was given to him by it's owner. That owner of this bicycle abandoned the property months prior when the owner who brought that bicycle into this conspiracy left it while I had taken him to the hospital for vomiting all over my apartment. This was the first and only day I ever met this man and this bicycle. The story of this is told in my answer filing that just so happens to be placed upon the internet record on

twitter.

What is a NPI Number? : The National Provider Identifier (NPI) is a unique identification number for covered health care providers. The NPI is a 10-position, intelligence-free numeric identifier (10-digit number). This means that the numbers do not carry other information about healthcare providers, such as the state in which they live or their medical specialty. The NPI must be used in lieu of legacy provider identifiers in the HIPAA standards transactions. Covered health care providers and all health plans and health care clearinghouses must use the NPIs in the administrative and financial transactions adopted under HIPAA (Health Insurance Portability and Accountability Act).

Where NPI should be used? : The NPI must be used in place of legacy provider identifiers, such as a Unique Provider Identification Number (UPIN), Online Survey Certification & Reporting (OSCAR) and National Supplier Clearinghouse (NSC) in HIPAA standard transactions. There are two categories of health care providers for NPI enumeration purposes. Entity Type 1 providers are individual providers who render health care (e.g., physicians, dentists, nurses). Sole proprietors and sole proprietorships are Entity Type 1 (Individual) providers. Organization health care providers (e.g., hospitals, home health agencies, ambulance companies) are considered Entity Type 2 (Organization) providers.

Who must obtain NPI? : All health care providers who are HIPAA-covered entities, whether they are individuals (e.g., physicians, nurses, dentists, chiropractors, physical therapists, or pharmacists) or organizations (e.g., hospitals, home health agencies, clinics, nursing homes, residential treatment centers, laboratories, ambulance companies, group practices, Health Maintenance Organizations [HMOs], suppliers of durable medical equipment, pharmacies) must obtain an NPI. The NPI will be used by HIPAA-covered entities (e.g., health plans, health care clearinghouses, and certain health care providers) to identify health care providers in HIPAA standard transactions. A covered health care provider, under HIPAA, is any health care provider who transmits health information in electronic form in connection with a transaction for which the Secretary of Health and Human Services has adopted a standard, even if the health care provider uses a business associate to do so.
